

neurocritical care society

Dear Drs. Manuel Poblano Morales and Héctor Rafael López:

On behalf of the Neurocritical Care Society, we are pleased to inform you that the Mexican College of Critical Care Medicine's request for the NCS International Partners Program has been approved. We welcome you as a partner!

The Neurocritical Care Society is a multidisciplinary, international organization whose mission is to improve outcomes for patients with life-threatening neurological illnesses. NCS aims to recognize, support, and partner with developing Neurocritical care sections, chapters, or interest groups within existing national societies, or as newly founded societies in order to advance the mission of improving care for critically-ill patients with neurological diseases. As an International Partner, the following benefits will apply. We did note in your cover letter that additional items were listed for future discussion. Romer Geocadin is NCS' Immediate Past President and serves as the Society's International liaison. He will be in contact with you soon to discuss these items.

- 40% discount will be offered for NCS membership dues except for countries with World Bank B classification. The NCS Executive Office will require a list of your membership with email addresses and NCS will provide information/instructions on how to join NCS at the discounted rate (if applicable).
- The NCS and the international society will exchange email member lists to promote society activities/events free of charge.
- An official recognition of the partnership will be posted on the respective websites.
- The international society will designate a liaison who is a full NCS member to participate on the NCS International Regional Committee. The liaison will actively participate via conference call, email contact, or in person with the NCS International Committee on a 3-4 times per year basis.
- NCS will work collaboratively via the International Regional Committees to help advance the long-term goals of the partner. Initiatives requiring financial support from NCS must be approved by the NCS Board of Directors.
- Discounted fees for Annual Meeting registration will be offered to the partner members that join NCS.

We look forward to collaborating with the Mexican College of Critical Care Medicine!

Please feel free to contact the NCS Executive Office at info@neurocriticalcare.org or (952) 646-2034 if you have any questions.

Kindest regards,

Sincerely,

Ed Manno, MD, FNCS

President, Neurocritical Care Society
